THE FUTURE OF BIOLOGICAL SAMPLE COLLECTION AND MANAGEMENT

PerkinElmer 226 Sample Collection Device

The PerkinElmer 226 Sample Collection Device offers a minimally invasive technique providing many advantages over venipuncture.

- ✓ Reduces discomfort and inconvenience for the donor.
- ✓ Collection is simple eliminating the need for a phlebotomist.
- ✓ Provides an efficient method of storage and transportation.

PerkinElmer 226 is a 100% pure cotton linter filter paper validated for even and uniform sample distribution. This feature delivers reliable and homogenous analytical results from across the dried sample area. Being chemical free adds a level of safety and testing purity. Desiccation is not required before and/or after your sample has been applied in most situations. Simply apply your sample, allow it to dry completely, and then you are ready to ship or analyze.

PerkinElmer can custom-print and convert the Grade 226 Paper into a device format that meets your specialized requirements. Our capabilities also include printing barcodes and serialized numbers onto your devices to make them unique and traceable.

PerkinElmer[®]
For the Better

Quality and Expertise

PerkinElmer is a global leader in the design, manufacture and delivery of advanced technology solutions addressing the world's most critical health and safety concerns.

PerkinElmer 226 Sample Collection Devices* are manufactured at our ISO9001-2008 / ISO13485 certified, QSR compliant-FDA regulated facility. We offer world-class expertise in the design and manufacturing of medical collection devices. All lots of PerkinElmer 226 are first approved by the CDC to comply with CLSI global standards governing newborn screening.

PerkinElmer 226 Sample Collection Device

- 100% cotton linter fiber filter paper designed to hold bio-samples
- Protects sample integrity during transport
- Homogenous media for reproducible and reliable results
- FDA listed product
- CE marked

Our Capabilities

- Custom manufacturing and printing
- Bar-coding & serialization for traceability
- Kit assembly

Additional Products & Services Include

- PerkinElmer 226 Spot Saver Card™
- PerkinElmer 226 Five-Spot Card
- Custom Collection Cards
- Automated Processing

* PerkinElmer 226 Sample Collection Devices include the FDA cleared Ahlstrom 226 grade paper, which is available exclusively from PerkinElmer globally.
